Hamburg series in five colours

Handles from HOPPE can create new highlights for individual interior design styles. The aluminium series Hamburg is the ideal match for modern home furnishings.

The choice of five attractive finishes makes it easy to find the right handle for every style. The familiar F1 silver effect and F9 steel effect are completed with the on-trend colours F3 gold effect, F4 bronze effect and F9714M matt black.

Black door handles are currently on trend. They are particularly impressive on dark-coloured door leaves, enhancing their modern impression in a stylish yet inconspicuous manner. These dark colour shades can lend a tone-in-tone furnishing style even more elegance.

Gold-coloured door handles perfectly match the on-trend metallic finishes of furniture and home accessories. They can also make a room feel cosy.

Our architectural fittings are extensively tested for lasting, flawless function – based on practice on the product carrier. That’s why we offer a 10-year guarantee on the mechanical function of our door handles.

Also available in all five finishes: WC-accessories for interior doors, handle sets and accessories for entrance doors.

Quick-Fit Quick fitting by simply putting the door handles together
